

## 025:250 COMPOSITION: ELECTRONIC MEDIA I

Fall 2012

### Regions

1. There are several considerations when selecting and moving regions.
2. When selecting a region, the entire region must be highlighted. In the example below on the right, Tracks 1 and 2 are selected, while 3 is not.

In the example on the right, the first 3 regions in Tracks 1-3 are selected. The regions following these, are not selected.

3. When moving regions, if the highlighted area covers part of a non-selected region, that region will not be affected, as shown in the two examples below.
