

## Composition: Electronic Media I

Fall 2004

### Intro to Peak

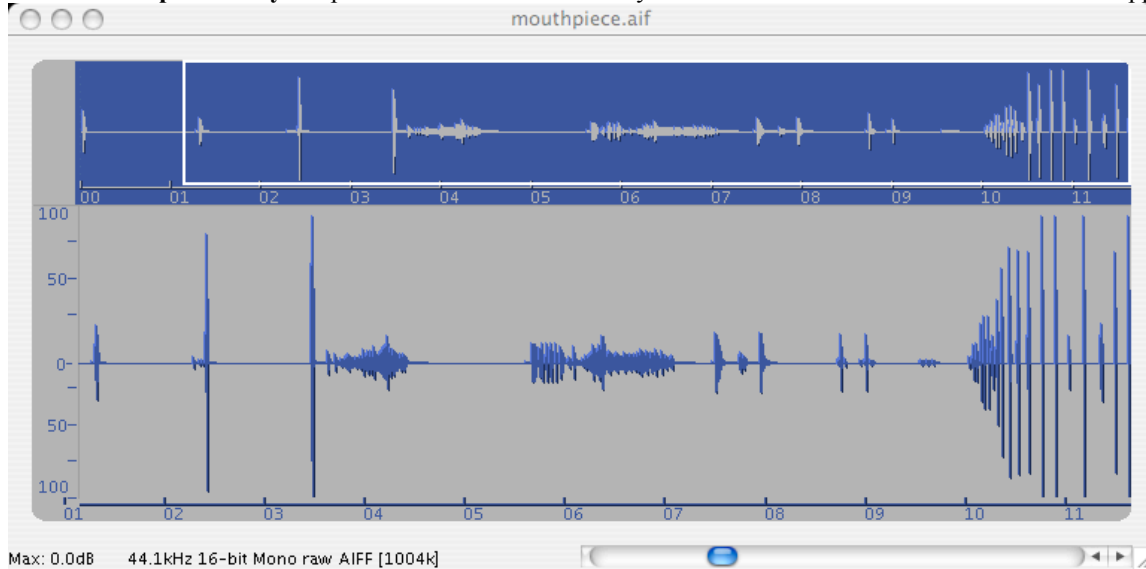

1. Prepare to launch **Peak** as follows:
  - a) Power up the studio as discussed in class.
  - b) On the mixer, bring up faders 1, 2, 9, 10 and assign them to busses 1-2, 3-4, 5-6, 7-8.
  - c) Bring up the bus faders to unity gain.
  - d) Bring up faders 23-31 for desired sound diffusion.

2. Launch **Peak** by selecting its icon in the dock, as shown below:

After **Peak** launches, close any windows that may appear.

3. Select **File>Open>Larry** to open a soundfile named "Larry." An **edit window** like the one below will appear:

4. The following functions will be discussed in class:

- a) Play, stop, cursor placement.
